BATTERY MANAGEMENT

The battery is not fully charged out of the box, so it is recommended that you charge the battery for at least 6 hours before you start to use the device.

The rechargeable battery is designed and manufactured to be used and recharged frequently. As with all batteries, the capacity of the battery reduces each time it is charged/depleted. However, you can still try to prolong the battery's lifetime by following the suggestions below:

- Use your Tablet at least once a week.
- Charge the battery regularly and fully.
- Never leave the battery fully discharged for a long period of time.
- Always keep the device and the battery away from heat.

Charge battery

Plug the power adapter into an electrical wall outlet, and then connect to the device to fully charge the battery before use (A full charge takes about 6 hours in the off status).

When fully charged, the battery icon displays as ■.

A fully discharged battery takes approximately 6 hours to fully charge in the off status.

IMPORTANT SAFETY PRECAUTIONS

Always follow these basic safety precautions when using your Tablet. This reduces the risk of fire, electric shock, and injury.

- Do not expose this product to rain or moisture.
- Keep the device out of direct sunlight and heat sources.
- Protect the power cord. Route power cords so that they are not likely to be walked on or pinched by items placed on or against them. Pay particular attention to the point where the cord attaches to the device.
- Only use the AC adapter included with the device. Using any other power

adapter voids your warranty.

- Do not remove the cover. There are no user-serviceable parts inside.

Cleaning your device

Treat the screen gently. To clean fingerprints or dust from the screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth.

APPENDIX : THE OPTIONAL PARTS AND MODELS

Parts name	Parts type	
3G Wireless Network Card	WCDMA	HUAWEI E220
		HUAWEI E230
		HUAWEI E160X
		HUAWEI E169G
		HUAWEI E1750
		HUAWEI E173
		HUAWEI W8

		HUAWEI E153
		HUAWEI E153u6
		VW718/719
		Alcatel AL720
		ZTE MF190
		ZTE MF110
		ZTE MF210
		SEW868
		UW100
	GPS Receiver	Central-day technology ND100
Central-day technology ND100S
